To Whom It May Concern,

This is to certify that Seaway Trail Honey, owned and operated by Pat Bono, is Kosher. The honey is pure and processed in a plant that only produces honey. The processing of the honey does not require heat. All utensils used in the production are dedicated to the honey production and all containers in which the honey is sold are new. The honey which contains walnuts is not included in this certification.

The spices of ginger, rosemary, cocoa, cinnamon, and pumpkin spice which are mixed with the Honey are all certified with a reliable Kosher certification.
